## 5 minutes with Richard Dean

Making up the stars is all in a day's work for Richard Dean, Max Factor Make-up Artist. As one of Hollywood's most respected and sought after make-up artists, Dean has worked on films such as *Closer*, *Mona Lisa Smile* and *Meet Joe Black*. We asked him for some of his top tips for women on the run. Dean says that the three most important things to help you look your best are the following:

- Curl your eyelashes – it is great for opening eyes. His favourite mascara for opening up eyes is Max Factor Lash Lift Mascara, \$24.95.
- Use blush on the ball of your cheeks for a gorgeous youthful flush.

● Create a "touch of magic". Apply a dot of colour, such as a gold or silver, to the middle of your top eyelid close to the lash line. When you open and close your eyes, it will catch the light and brighten your look. Dean's favourite product of the moment? Max Factor Colour Perfection Lip Colour in Sequin, \$22.95.
